

Quality Engineer – Beachwood, OH

Are you passionate about quality, process improvement, and driving operational excellence? Ionbond is seeking a Quality Engineer to play a key role in ensuring our products and processes consistently meet the highest standards of quality, reliability, and customer satisfaction. This position partners closely with operations, engineering, and customer service to identify improvement opportunities, solve complex problems, and support a culture of continuous improvement. Join us at the Cleveland Coating Center and be a part of an innovative team!

Ionbond – The Surface Engineers™

Ionbond provides advanced coating solutions for applications in the aerospace, medical, food contact, automotive, decorative, tooling and fuel cells industries. We offer a broad range of hard, low-friction, wear-resistant coatings based on PVD, PACVD and CVD technologies. With 30 job coating centers in 14 countries in Europe, North America and Asia, Ionbond has one of the largest coating networks in the world. Ionbond is part of renowned Japanese industrial consortium IHI Group.

What defines this job?

- Manage and maintain the Quality, Health, Safety, and Environmental (QHSE) Management Systems
- Lead internal audits, inspections, and compliance assessments, coordinating corrective and preventive actions
- Investigate quality issues, customer complaints, safety incidents, and environmental concerns, performing root cause analysis and implement effective corrective actions.
- Develop, implement, and monitor quality, safety, and environmental programs, procedures, and training
- Analyze QHSE performance metrics and trends, identifying opportunities to improve product quality, workplace safety, environmental performance, and process efficiency.
- Support customer, regulatory, and certification audits while maintaining documentation and records required for compliance with applicable standards such as ISO 9001 and OSHA requirements.
- Partner with cross-functional teams, including Production, Engineering, Maintenance, and Management, to improve processes, reduce risk, and support business objectives
- Other related duties as apparent or assigned.

What do we offer?

Unleashing potential is at the core of our approach. We provide a dynamic environment that opens doors to both international and local growth opportunities, helping you reach your full potential. Here's what you can expect from being part of our team:

- International and local growth opportunities
- Diverse work environment where we embrace teamwork and innovation that drives us towards new applications and customer service excellence.
- Competitive compensation package: salary based on experience and educational credentials.
- Excellent Medical, Dental, vision benefits with affordable premiums and annual deductibles
- Flexible spending accounts (medical and dependent care)
- Life insurance
- Short-term & long-term disability
- Employee assistance program
- Generous Paid Time Off
- Tuition Reimbursement
- 401k Safe Harbor Retirement Account plus company match
- Bonus plan eligibility

What do we ask?

The preferred candidate will have a Bachelor's degree level education or relevant work experience (Engineering, or Quality preferred). Excellent communication and leadership skills. 2-3 years' experience in developing, implementing, and maintaining an ISO based QMS. Knowledge working with OSHA regulations, Lean Manufacturing, and Six Sigma methodologies preferred. Knowledge of inspection equipment, procedures, and methods; knowledge of quality assurance methods, procedures, and systems. Working knowledge of precision tooling and surface enhancement coatings is preferred. Ability to devise or modify methods or processes to solve specific problems and ability to manage multiple projects and work under pressure to meet established deadlines. A strong work ethic, attention to detail, and organizational skills are also important. The ability to travel within the U.S. and internationally (minimally 10%) is required. Additionally, the candidate must be able to pass a background check and be eligible to work in the U.S. without sponsorship.
