

Machine Operator – Rockaway, New Jersey

Are you interested in working with cutting-edge technology in the coating and finishing of medical and implant devices, as well as a wide range of industrial components? Do you want to be part of a team that makes an impact across multiple manufacturing industries? If so, a career as a Machine Operator may be the perfect opportunity for you. Ionbond is an innovative and growing industrial services company specializing in advanced surface preparation and commercial coating solutions. We work with customer-owned products for industries such as aerospace, automotive, medical, and more.

Ionbond – The Surface Engineers™

Ionbond provides advanced coating solutions for applications in the aerospace, medical, food contact, automotive, decorative, tooling and fuel cells industries. We offer a broad range of hard, low-friction, wear-resistant coatings based on PVD, PACVD and CVD technologies.

With over 30 job coating centers in 14 countries in Europe, North America and Asia, Ionbond has one of the largest coating networks in the world. Ionbond is part of renowned Japanese industrial consortium IHI Group.

What defines this job?

- Perform assigned functions, processes, and procedures that meet customer orders specifications, quality requirements, and production standards
- Assigned functions may include blasting, cleaning, stripping, fixturing, inspecting, and assisting production operators.
- Work closely with supervisors and staff to operate high-vacuum PVD coating chambers
- Conduct periodical checks to ensure the machines and processes are running correctly
- Load and unload customer products into machines while handling parts with care
- De-fixture batch loads after processing
- Perform general maintenance and clean the interior of coating machines
- Carry out basic visual inspection on parts after processing
- Other duties as assigned
