

## Metal Polisher – Rockaway, NJ

We are seeking a skilled Finishing Technician to support the precision deburring and hand-finishing of medical device components using established processes, tools, and equipment. If you're excited by cutting-edge technology in the coating and finishing of medical and implantable devices, this role offers the chance to work directly with products that make a real impact. Our Rockaway facility specializes in machined orthopedic implants, precision surgical instruments, and other advanced medical components. If you're motivated by meaningful work and enjoy being part of a team that contributes to the quality and safety of life-changing medical devices, this could be the ideal opportunity for you.

### Ionbond – The Surface Engineers™

Ionbond provides advanced coating solutions for applications in the aerospace, medical, food contact, automotive, decorative, tooling and fuel cells industries. We offer a broad range of hard, low-friction, wear-resistant coatings based on PVD, PACVD and CVD technologies. With over 30 job coating centers in 14 countries in Europe, North America and Asia, Ionbond has one of the largest coating networks in the world. Ionbond is part of renowned Japanese industrial consortium IHI Group.

#### What defines this job?

- Perform precision deburring and hand-finishing of medical device components using established processes, tools, and equipment.
- Enhance surface finishes to meet strict blueprint specifications, often achieving sub-30nm Ra requirements.
- Collaborate closely with Supervisors, Engineering, and Quality Control teams to improve final part quality and prevent defects.
- Apply strong problem-solving skills to drive continuous improvement in both quality and process efficiency.
- Maintain a safe, organized, and compliant work environment by following all safety rules and established work practices.
- Demonstrate a positive attitude and contribute to a collaborative, team-focused culture.
- Support special plant projects and perform additional duties as assigned to meet operational needs.

#### What do we offer?

Our employees are our single most valuable assets! We strive to make Ionbond a great place to work including:

- Diverse work environment
- Competitive compensation package; salary based on experience and educational credentials
- A place to work with international and local growth opportunities
- Excellent Medical, Dental, and vision benefits with affordable premiums and annual deductibles
- Flexible spending accounts/HSA Account (medical and dependent care)
- Life insurance
- Short-term & long-term disability
- Employee assistance program
- Generous Paid Time Off
- Tuition Reimbursement
- 401k Safe Harbor Retirement Account plus company match

#### What do we ask?

The preferred candidate will have a High School Diploma (GED) with two years of experience in a machine shop environment and one year of metal finishing. The candidate will have experience with buffing and polishing metal parts and be able to consistently follow prescribed methods and processes. They must possess the ability to work independently with little to no supervision. Must possess strong critical thinking skills and have the ability to communicate effectively. Must have the ability to read instructions in English and documents as small as 8-font size. Be able to sit/stand for long periods during an 8-hour shift. This is a full-time, on-site position, scheduled Monday through Friday, 6:00 AM to 2:30 PM. The pay range for this role is \$18–\$24 per hour, depending on experience and qualifications. Candidates must be authorized to work in the United States and successfully pass a criminal background check and physical screening.
