

Quality Inspector – Rockaway, NJ

We are seeking a detail-oriented Quality Control Inspector to join our team and play a key role in inspection, auditing, and documentation processes. If you're passionate about advancing coating and finishing technologies for medical implants and industrial components, and you thrive in a collaborative environment where quality directly impacts customer satisfaction, this opportunity may be the perfect fit. You'll work closely with the Quality Manager to support innovative production efforts, uphold rigorous quality standards, and contribute to the continued advancement of our cutting-edge coating solutions.

Ionbond – The Surface Engineers™

Ionbond provides advanced coating solutions for applications in the aerospace, medical, food contact, automotive, decorative, tooling and fuel cells industries. We offer a broad range of hard, low-friction, wear-resistant coatings based on PVD, PACVD and CVD technologies. With over 30 job coating centers in 14 countries in Europe, North America and Asia, Ionbond has one of the largest coating networks in the world. Ionbond is part of renowned Japanese industrial consortium IHI Group.

What defines this job?

- Inspect coated parts for coating thickness, coating adherence, surface finish, substrate & coating hardness, size and appearance, records inspection information consistent with prescribed methods and procedures
- Conduct audits, including control plan audits, product audits, 5S HSE, QMS self-assessments, and customer-supplied audit forms, under supervision.
- Take charge of relevant document and data control, ensuring updates and maintaining daily inspection logs promptly and accurately.
- Maintain a clean workstation; ensure it is functioning within required safety guidelines and maintain lab equipment.
- Communicates effectively to supervision and operating personnel to achieve optimum continuity of workflow and quality, and any other job-related problems.
- Use precision measuring instruments and make precision inspection set-ups accurately.
- Responsible for 5S Program (continuous improvement) in the QC area and other areas where assigned.
- Other duties as assigned

What do we offer?

Our employees are our single most valuable assets! We strive to make Ionbond a great place to work including:

- Diverse work environment
- Competitive compensation package; salary based on experience and educational credentials
- A place to work with international and local growth opportunities
- Excellent Medical, Dental, and vision benefits with affordable premiums and annual deductibles
- Flexible spending accounts/HSA Account (medical and dependent care)
- Life insurance
- Short-term & long-term disability
- Employee assistance program
- Generous Paid Time Off
- Tuition Reimbursement
- 401k Safe Harbor Retirement Account plus company match

What do we ask?

Candidates must have a minimum of a high school diploma, with additional knowledge gained through experience; an Associate Degree is preferred. A minimum of 2 years of experience in a manufacturing environment performing quality control inspections and procedures is required. Applicants should be proficient with Microsoft Office and possess strong organizational and time-management abilities. The role requires the ability to sit or stand for extended periods, read small print (as small as 6-point font), distinguish color variations, and handle precision-machined parts with good manual dexterity. Candidates must be able to wear all required PPE and read instructions in English. The ideal candidate demonstrates strong critical-thinking skills, effective communication abilities, and thrives in a fast-paced environment. This is a full-time, on-site position, scheduled Monday through Friday, 12:00 PM to 8:30 PM. The pay range for this role is \$18–\$24 per hour, depending on experience and qualifications. Candidates must be authorized to work in the United States and successfully pass a criminal background check and physical screening.
